ONE-STOP SERVICE OF MULTIPLE TRADESPEOPLE

Can you believe it's already half way through February? We hope the year is off to a great start for you. The JNS Team have been hard at work across Kent, delivering a wide range of electrical and building services. From HMO conversions to office fit-outs, we've been on the go, handling everything from first and second fix electrical installations for homes to more complex commercial projects. Whether we're powering up a new office space or laying the groundwork for a home extension, we're committed to ensuring every project runs smoothly and on schedule. We're proud of the diverse work we've completed this month and are excited to take on more challenges in the weeks ahead.

OFFICE REFURBISHMENT
COMPLETED

HMO PROJECT
STARTED

We have completed an office refurbishment project in Maidstone, Kent, working on behalf of RAP Interiors. While we're unable to share the detailed process of this project, we're excited to show you the stunning finished results.

Our team carried out a comprehensive range of works, including a full strip-out, installation of pad stones and steelwork to create a second floor, extensive first and second fix electrical installations. Additionally, we handled the boarding, plastering, carpet laying, fire stopping, partitioning with glazing, painting & decorating, ensuring a high-quality finish throughout the entire space.

It's always a pleasure to collaborate on such dynamic projects, and we're proud to have played a key role in expanding this office space.

Members of our team have recently completed a successful commercial electrical installation at a property in Ashford, Kent. The scope of work included pulling cables, installing ceiling grids, connecting fuse boards, and fitting new lighting throughout the building.

Thanks to the hard work and expertise of our team, the project ran smoothly, making it a pleasure to deliver. We're proud of the results and the positive feedback we've received, and we look forward to continuing to support our clients with projects like this.

We have enjoyed working on a stunning residential property in the picturesque area of Sevenoaks, Kent. The property, an old cottage, is currently undergoing extensive renovations to create a large, modern extension that offers breathtaking views of the surrounding countryside. Our team have been busy installing the first and second fix electrics, ensuring that the home meets all the electrical requirements of a contemporary, high-spec living space. More images are coming soon, keep an eye on our socials !

Follow Us !

We've recently begun work at a large property in Sevenoaks, converting it into a 9-bedroom HMO plus a two-bedroom basement flat. So far, we've started the first fix for the electrics, plumbing, and heating, and next, we'll be moving on to the installation of the fire and security systems.

We particularly enjoy projects like this, it's incredible to see the transformation from start to finish and witness the before and after results.

Keep an eye out for updates on our socials as we progress through this project.

Across the South East, we've been busy installing car chargers for both commercial and residential properties. **We're excited to extend our 10% discount for another month!** If you're considering an installation, now is the perfect time to take advantage of the offer.

Our skilled team is here to guide you through the process, offering expert advice on the best options and locations to ensure your charger is installed exactly where you need it for easy access and maximum convenience. Get in touch with us this month to secure your discount!

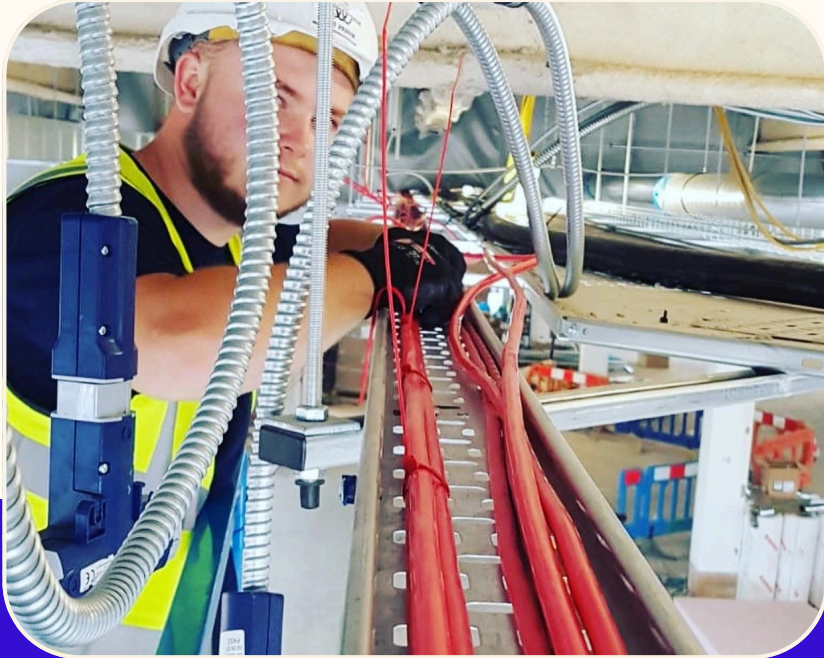

One of our key strengths is building long-term relationships with our clients. We're committed to delivering high-quality work consistently, ensuring our clients are always satisfied and confident in choosing us again and again.

Since 2013, we've been trusted to carry out electrical work for Mr Clutch across the country. Works include-

- installation condition reports
- PAT testing
- LED lighting upgrades
- new three phase power supplies to equipment
- and more...

We are looking for apprentices !

We are currently looking for apprentices to join our team. We all started out as apprentices, and now we want to offer the same opportunity to others who are eager to learn and experience the trade. Many young people aren't as aware of the possibilities within the trades, so we're keen to raise awareness that this is still a great career path for those who are willing to learn and put in the hard work. We're looking for motivated individuals who are ready to learn and grow with us.

Work experience !

We are delighted to welcome a student from Greenacre Academy, who will be joining us for a two-week work experience placement in March. We're thrilled to offer this opportunity to help them gain valuable hands-on experience in the industry. It's always rewarding to give young people a glimpse into the world of trades and share our knowledge with the next generation of skilled professionals.
