

NEWSLETTER

ONE-STOP SERVICE OF MULTIPLE TRADESPEOPLE

We hope you had a wonderful Christmas and New Year filled with joy and relaxation. The team is back in action and excited to share the fantastic projects we're working on!

We're thrilled to introduce our new monthly newsletter, designed to keep you updated on our latest projects, special offers, and important updates.

Whether you're planning a new project or just want to stay in the loop, we're here to help. If you have any enquiries or would like to discuss how we can assist with your electrical & building needs, please don't hesitate to get in touch with us.

Thank you for your continued support,

Electrical & Building Services Ltd

At JNS, we specialise in bringing **new** life to commercial spaces. Whether it's offices, school communal areas, or retail facilities, we thrive on turning dull, impractical areas into creative, functional, and space-efficient environments tailored to your needs.

From initial design through to the final touches, we handle every stage of the process. This includes first-fix electrics, building work, second-fix electrics, and project completion—all managed under one roof. With JNS, you won't need to juggle multiple contractors; we take care of everything, making your project seamless and stress-free.

At the end of last year, we completed the move to our brand-new office, along with a total refurbishment. After a full strip-out, we created a space tailored to our needs, including a dedicated store area, a fresh bathroom with a shower, a modern kitchen, a welcoming meeting area, and practical office desk space.

We're thrilled with the transformation and would love for you to visit if you haven't already! If you'd like to stop by our office in Rochester, just let us know—we'll be sure to put the kettle on and bring out the posh biscuits!

Exclusive Offer: 10% Off EV Charger Installations!

We're excited to offer a 10% discount on the installation of two EV chargers for the first clients to get in touch after receiving this newsletter.

If you already own an electric vehicle or are planning to get one soon, we're here to help. Our expert team will guide you through the entire process, from assessing your property and electrical requirements to recommending the best chargers for your needs. We'll take care of everything, including installation, wiring, and testing, to ensure your chargers are safe, efficient, and ready to use.
